

# 10th IEEE Global Internet Symposium 2007

(In conjunction with IEEE Infocom 2007)

Anchorage, AK, May 11, 2007

## Call for Papers

The 10th IEEE Global Internet Symposium will be held simultaneously and co-located with IEEE Infocom 2007. All relevant dates, location, and travel information are available from the IEEE Infocom 2007 conference site: <http://www.ieee-infocom.org/2007>. Paper submission guidelines can be found at <http://netsec.cs.uoregon.edu/gi2007>

### Symposium Topics

IEEE Global Internet 2007 aims to provide a forum for researchers and practitioners to present and discuss advances in Internet-related technologies. The focus of the symposium is on experimental systems and on emerging Internet technologies. The Program Committee encourages original submissions describing promising work in progress, speculations about the future of the Internet, and progressive position papers. Authors are invited to submit papers on any issue related to Internet technology, including but not limited to the following topics:

- |   |   |
|---|---|
| P2P networking and overlay networks   | The Internet and mobility/mobile devices  |
| Privacy and/or security issues in the Internet  | Novel applications and new paradigms (telephony, streaming media, etc.)               |
| Provisioning, monitoring, and management of IP services (VPNs, traffic engineering, mobility support, etc.) | Handling Internet dynamics/heterogeneity (by applications and/or the network)         |
| Content networking (caching, content distribution, content routing, content services, load balancing, etc.) | Flow management (fairness/sharing, congestion control, differentiated services, etc.) |
| Distributed Internet applications including games, VoIP, and video conferencing                             | Traffic measurement, analysis, modeling, and visualization                            |
| Routing (unicast, multicast, anycast, etc.)   |   |
| Anomaly, intrusion and attack detection   |   |

### Important Dates

Paper Registration Due: February 5, 2007, 11:59 PM, PST	Notification of Acceptance: March 19, 2007
Paper Submissions Due: February 12, 2007, 11:59 PM, PST	Final Manuscript Due: April 9, 2007

### Open Review Process

The review process will follow a radically different format: the reviewers' names will be made known to the authors. In addition, if the authors of the paper consent, the reviews and the names of the reviewers will be posted on our website. The goal is to put more stress on the reviewers to be gentle and thorough in their reviews. Note that GI 2007 is arguably the first forum to implement this approach in the recent past.

### Executive Committee

TPC Co-Chairs:	Michalis Faloutsos, UC Riverside; Reza Rejaie, University of Oregon
Publicity and Web Chair:	Jun Li, University of Oregon
Publication Chair:	Jakob Eriksson, MIT
Local Arrangement:	Jun-Hong Cui, University of Connecticut, Storrs

### Technical Program Committee

Kevin Almeroth, Univ. of California, Santa Barbara	Jun Li, University of Oregon
Sujata Banerjee, HP Labs	Bin Liu, Tsinghua University
Anup Basu, University of Alberta	John Lui, Chinese University of Hong Kong
Azer Bestavros, Boston University	Christos Papadopoulos, Colorado State University
Georg Carle, University of Tuebingen	Craig Partridge, BBN Technologies
Jon Crowcroft, University of Cambridge, UK	George C. Polyzos, AUEB, Greece
Michael Devetsikiotis, North Carolina State University	Peter Reiher, Univ. of California, Los Angeles
Christos Douligeris, University of Piraeus	Henning Schulzrinne, Columbia University
Sonia Fahmy, Purdue University	Samar Singh, La Trobe University, Australia
Paul Francis, Cornell University	George Stamoulis, AUEB, Greece
Christos Gkantsidis, Microsoft Research	James Sterbenz, The University of Kansas
Tim Griffin, University of Cambridge, UK	Ljiljana Trajkovic, Simon Fraser University
Ahmed Helmy, University of Florida	Walter Willinger, AT&T Labs
Kevin Jeffay, Univ. of North Carolina at Chapel Hill	Daniel Zappala, Brigham Young University
Anestis Karasaridis, AT&T Labs	Zhi-Li Zhang, University of Minnesota
Jörg Liebeherr, University of Toronto	Taieb Znati, University of Pittsburgh
